

# Supply of new build 650 T capacity auxiliary reel

ASSET  
LOCATION

Pipe lay vessel  
UK

Design, manufacture and  
supply of 650 T capacity  
auxiliary reel

## BENEFITS

Engineering support to ensure the  
equipment was fit-for-purpose

Delivery of equipment on a short time  
scale

Technical support to ensure correct  
installation

DELIVERY ASSURED

## CHALLENGE

When you require new build cable and pipe lay equipment you need experts that can design and manufacture equipment that is fit-for-purpose. Our client required to install an existing lay spread to a brand new vessel and they contracted us to supply and install a new 650 T capacity auxiliary reel.

## SOLUTION

- The reel incorporated a new support and drive system in order to accommodate flexible pipes ranging between 3-in and 8-in in diameter.
- After manufacture the reel was shipped to a ship yard in Finland for installation upon the clients vessel and commissioning and sea trials took place in Scotland at Invergordon and Evanton.

## SUMMARY

- Project management
- Design
- Procurement
- Management of fabrication
- Audit reporting
- Commissioning
- Supply of offshore personnel
